

Fruit Garden of Moldova

Period of implementation: 01.07.2016 - 31.07.2023

EaP countries:
Moldova

Total budget: € 120 000 000

Implementing organisation(s):

Project Implementation Unit under the Ministry of
Agriculture, Regional Development and Environment

Project website: www.livada-moldovei.md

Project description:

The Fruit Garden of Moldova Project is a credit line of the European Investment Bank for upgrading the horticultural sector in Moldova worth over €120 million. €12 million of them are earmarked for investments in the public infrastructure (horticultural education and training), while the other €108 million are intended for investments to be harnessed by private entrepreneurs. In addition, a €2.4 million Technical Assistance Project (TA) is supporting farmers and SMEs to access the credit line.

Expected results:

The absorption of EUR 108 million for the private sector by Moldovan entrepreneurs and finally the restructuring of the sector in the country, by setting up modern multi-annual plantations of varieties and rootstocks adapted to the international market, developing the horticultural processing sector, implementing innovations, etc. With an amount of EUR 12 million for investments in the Technical University of Moldova, the State Agrarian University of Moldova, but also in the profile colleges, the project contributes to raising a new generation of technical specialists.
