Апісанне праекта:

This project aims to improve employability and employment of disadvantaged community members in three regions in Georgia: Guria, Adjara and Samegrelo. This will be done through promoting sectorial partnership, entrepreneurial learning and innovative approaches.

The project will:

- Implement demand-driven learning, skills development and capacity building programs for project target disadvantaged groups, local businesses and training providers;
- Create employment opportunities for target group members in local economic sector by strengthening existing businesses and supporting the establishing new enterprises;
- Standardize skills and best practices by strengthening business clusters created within the project and introduce innovative approaches.

The project is part of the EU's Skills4Jobs Programme, implemented to enhance Georgia's economic resilience and sustainable growth through human capital development and skills matching.

Чаканыя вынікі:
