**Project website:** [natolin4cb.eu/](https://natolin4cb.eu/)

**Project description:**

The project will support the public administration of Ukraine in implementation of the comprehensive reforms and implementation of the EU -Ukraine Association Agreement (AA), including Deep and Comprehensive Free Trade Area, and further EU-Ukraine integration and legal approximation, through institutional capacity-building by way of practically-oriented studies and blended-learning educational programmes delivered by the College of Europe, Natolin.

**Expected results:**

- 1) Development of an educational e-learning platform and programme consisting of at least 16 thematic knowledge-based courses and supplies/channels of electronic communication for the public administration in Ukraine, followed by at least 750 users.
- 2) Well-tested methodology enabling civil servants to apply theoretical knowledge to their work and institutional demands, at the domestic and EU level.
- 3) Beneficiaries, experts and stakeholders of the project will remain in a close contact, exchanging knowledge, expertise, advice on the EU-UA integration processes and upcoming challenges and to monitor the implemented project activities, on an on-going basis.
