Ukraine

EU contribution: € 2 449 200

Total budget: € 2 449 200

Implementing organisation(s):
Consortium led by EUROSUPPORT - FINEUROP
SUPPORT SRL

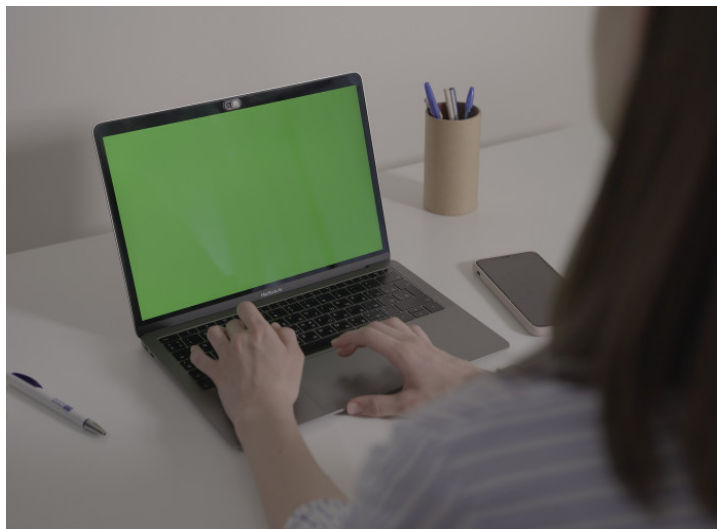

Project website:

Project description:

The project 'Support to the Public Procurement Reform in Ukraine' supports the reform of the public procurement system in Ukraine, in line with the government's Public Procurement roadmap and Ukraine's commitments under the Association Agreement/Deep and Comprehensive Free Trade Agreement. The project aims at strengthening capacities in public procurement in line with international standards through, inter alia, support to: (i) Legal and regulatory approximation of PP and concessions laws to EU standards; (ii) Strengthened institutional and organizational capacities and further improved e-procurement; (iii) Strengthened institutional and organizational capacities of the relevant public bodies in control, audit and complaint/review of public procurement procedures and (iv) strengthened institutional and organizational framework for professionalisation of PP professionals and enhanced communication/outreach to the participants of the PP market

Expected results:

- R 1: Legal and regulatory approximation of PP laws to EU standards (including concessions)
- R 2: Strengthened institutional and organizational capacities and further improved e-procurement (including concessions and international cooperation in PP)
- R 3: Strengthened institutional and organizational capacities of the relevant public bodies in control, audit and complaint/review of public procurement procedures
- R4: Strengthened institutional and organizational framework for professionalisation of PP staff and enhanced communication/outreach to the participants of the PP market.
