Project description:

The aim of the project is to implement modern standards and effective tools in the law enforcement system of Ukraine to ensure childrens safty in the digital world. Thus, for three years, the implementing partners will focus on raising the level of professional knowledge of law enforcement officers and strengthening cross-sectoral cooperation in Donetsk, Dnipropetrovsk and Kharkiv regions.

Expected results:

Output 1: Capacity of law enforcement professionals to build effective up-to-date response to online abuse among and towards children is strengthened

Output 2: Child friendly complain mechanism on online abuse among and towards children is developed and introduced

Output 3: Local policies and cooperation to address online abuse among and towards children are developed

Output 4: Lessons learned and best practices of the project are distributed

**Funded by the
European Union**
