

“Strengthening hydrometeorological and climate services in Azerbaijan” Twinning project

Perioada de implementare: 01.09.2022 - 31.08.2024

Țările PaE:
Azerbaijan

Contribuția UE: € 1 500 000

Buget total: € 1 500 000

Organizație(Organizații) de implementare:

Finnish Meteorological Institute, The Lithuanian Hydrometeorological Service, The International Office for Water (France)., Environmental Projects

Site-ul proiectului: eco.gov.az/

Descrierea proiectului:

The overall objective of this twinning project is to enhance resilience and adaptive capacity of Azerbaijan, its people and economic sectors to climate-related hazards and natural disasters. The specific objective is to improve service delivery capacity of the National Hydrometeorological Service (NHMS) in line with international standards and best practices to meet national needs.

Component 1: Strengthening the strategic, legal and institutional framework for sustainable and effective provision of hydrometeorological and climate services

Component 2: Improving technical, operational and communication capacities of the NHMS

The aim of this component is to improve the technical and operational capacity of the NHMS for a better meteorological, hydrological and climate service delivery.

Component 3: Human resource development

The aim of this component is to equip NHMS' staff with enhanced professional knowledge and skills necessary to better conduct hydrometeorological observations, preparation and dissemination of forecasts.
