პროექტის აღწერა:

The Action is focusing on strengthening CSOs' capacity in the process of implementation of the Association Agreement, including at local level. The Action will primarily focus on community-based CSOs and ensure their bridging with well-established CSOs through consolidating the platforms and facilitating the engagement and partnership building among CSOs. All activities will focus on monitoring budgets and policies related to AA implementation, as well as building the capacities of CSOs in this regard, which will facilitate the AA implementation. It will allow the CSOs to join efforts on monitoring and advocacy activities with regard to budgetary and policy matters related to the implementation of the AA. The Action will integrate cross-cutting issues related to gender-equality, environmental practice, inclusion of people with disabilities and minority groups. There will be facilitated the bridging, networking, partnerships and knowledge sharing between community-based CSOs and CSOs from the central level, while the supported platforms will aim at extending their membership by making them more representative at the local/community level.

მოსალოდნელი შედეგები:

15 civil society organisations are trained and equipped in budget monitoring of local projects.
30 local and central projects linked to the Europeanisation agenda have been monitored and 30 independent budget analysis reports have been published by capacitated CSOs.
1 visibility and advocacy campaign for budget monitoring has been implemented.
