

Supporting Ukraine in rebuilding and recovery

Period of implementation: 12.11.2022 - 06.11.2025

EaP countries:
Ukraine

Implementing organisation(s):

Non-governmental organization "Kyiv School of Economics Institute"

Project website: kse.org.ua

Project description:

The major focus of the project is to support the recovery activities of the Government and to make recovery as effective as possible. KSE team is proposing to structure the project around two streams of work that are crucial in the current Ukrainian reality. The team is planning to expand our work on the internalization of the activities through the launch of the Ukraine Global Institute (UGI) and to support the government in the EU accession.

Expected results:

1. Improved policy and decision making on the recovery process in Ukraine.
2. Enhanced coordination of international analytical support to Ukraine.
3. Increased availability of analytical products on the recovery process.
4. Improved research and policy advice to the government from civil society on national economic issues.
5. Enhanced capacities of and support to Ukrainian politicians and civil servants on EU integration

**Funded by the
European Union**
