პროექტის აღწერა:

EU-FINREG project aims to assist the Ukrainian authorities in strengthening the regulatory framework and supervision practices for securities and investment business, insurance, pensions, non-bank credit institutions, non-bank payment institutions and other non-bank financial services. This will support Ukraine in building a sound regulatory environment for non-bank financial services, which will ensure fair and efficient markets, protect consumers and promote market development, thereby contributing to sustained economic growth.

მოსალოდნელი შედეგები:

The main required results to attain the Project objectives are as follows.

Result 1. A legal framework that approximates to EU standards and best practices in a broad range of financial services, including securities and investment business, fund management, insurance and non-state pension funds provision, leasing and factoring services, and non-bank credit institutions
