

Assistance for Dnipro transport development

Period of implementation: 28.12.2018 - 27.12.2023

EaP countries:
Ukraine

EU contribution: € 2 970 000

Implementing organisation(s):
ECORYS NEDERLAND BV

Project website: iwt-ukraine.com.ua

Project description:

To support the Ukrainian authorities to implement the inland waterway reform in Ukraine, the European Commission launched in January 2019 the "Assistance for Dnipro Transport Development" project, focusing on:

- 1) Improving the legal and regulative framework required for reforming the inland waterway transport (IWT) in relation to the EU-Ukraine Association Agreement;
- 2) Contributing to increasing the capacity of the Ministry of Infrastructure and related institutions with the aim to improve the safety, efficiency and effectiveness of the IWT sector in Ukraine;
- 3) Developing a comprehensive IWT plan for the Dnipro river.

Expected results:

The legal framework for Inland Waterway Transport in Ukraine to be in compliance with the provisions of specific EU directives, as per EU-Ukraine Association Agreement;

Capacity of the Ministry of Infrastructure and relevant institutions managing the IWT -system in Ukraine to be improved via series of trainings. This will lead to a reliable, impartial, transparent and efficient organisation, management and maintenance of the IWW network in Ukraine, in line with the EU standards;

A pilot data/statistics collection system on IWT to be established in Ukraine;

Strategy and Action Plan for the Development of Dnipro Inland Waterway Transport.
