Project description: proiect-twinning-finantat-de-uniunea-europea

“Support to promote cultural heritage in the Republic of Moldova, through its preservation and protection” is a Twinning project, implemented by the Ministry of Education Culture and Research of the Republic of Moldova (MECR) in partnership with its EU counterpart - the Italian Ministry of Cultural Heritage, Activities and Tourism (MiBACT). The overall objective of the project is to contribute to the protection of Moldova's cultural heritage by modernising Moldova's policies and management of the cultural heritage sector, in line with European standards and good practices.

Expected results:

- Around 30 experts from Italy will be involved in the project activities, in close cooperation with Moldovan experts from MECR and related institutions.
- The working methods will be based on continuous dialogue, capacity building and empowerment of Moldovan institutions through: peer reviewing of expert work, joint development of road map, study visits, internships at Italian institutions, seminars, workshops, trainings, on-the-job training and development of pilot projects.
- The Twinning project team will be working closely with the Beneficiaries on the reform of the legislation and institutional reorganization of the institutions responsible to implement their future tasks in heritage protection, in order to achieve a robust heritage protection system that can work effectively and efficiently.
- The Member State representatives and experts will be able to establish fruitful and effective cooperation and regular exchanges and dialogue.
- A cycle of five seminars at the Technical University of Moldova on aspects of architectural conservation will be initiated. The aim is to expose the students of the faculty of architecture to a different didactic approach.
- Study visits to get acquainted with the legal framework and the state organizational system for cultural heritage protection in Italy and the complementarity with the competences and role of the municipalities and the regional governments.
