Описание:

The Project aims to contribute to the (self)-employability of young people which will be achieved through a series of activities focused on educational capacity development, advocacy and youth work focusing on young people with fewer opportunities.

Ожидаемые результаты:

- The accessibility of qualification programmes for competence development of young people.
- Non-formal catch-up programme for school-drop outs.
- New needs and skill-based inclusive formal and non-formal VET programmes in compliance with a work-based learning (WBL) approach.
- Public stakeholders for youth employability, local and national youth-led structures and private companies involved or interested in work-based learning qualification programmes.
- Strengthened mechanism for validation of non-formal and informal learning (VNFIL) and central employment platform for unemployed youth.
