Project description:

Through Humanitarian Mine Action project the HALO Trust will work towards enhanced long-term security in Ukraine, its' successful development and alleviating of negative consequences of the armed conflict. HALO aims to provide training for state bodies and other national partners, and to deploy two non-technical survey teams, one EORE team, 7 manual clearance teams, one mechanical clearance team and one mechanical support clearance team to high-priority territories of Donetsk and Luhansk regions.

Expected results:

Estimated results:

- 950 EORE sessions provided
- 157 national operational staff members employed
- 650,000 m2 of land released through clearance and reduction
- 100,000 people informed of EU support to HALO Ukraine
