Ukraine

EU contribution: € 660 000

Total budget: € 750 018

Implementing organisation(s):
TRANSPARENCY INTERNATIONAL UKRAINE NON
GOVERNMENT ORGANIZATION

Project website: transparentcities.in.ua

Project description:

Through the implementation of the “Transparent Cities e-platform for cooperation of citizens and local governments for accountability and good governance” project, TI Ukraine seeks to enhance its initiative on City Transparency Ranking by launching an online-platform as a key project tool aimed at improving cooperation between the CSOs and local self-government bodies. Better cooperation will strengthen their capacities for proactive securing of the citizens' rights to access information and participate in development and implementation of decisions that directly affect them.

Expected results:

A full-fledged e-platform containing comprehensive information on transparency and accountability of 50 cities.
20 CSO engaged across 50 cities coordinated by five regional coordinators that use the e-platform.
No less than 20,000 people reached by the awareness raising campaign on transparency and accountability.
2,000 unique users of the e-platform by the end of the Action.
